### Weekly Accomplishments

*The student trainee should give a summary of the tasks performed during the week and how it was accomplished.*

During the fifth week of our OJT, our tasks remained mostly the same as before. Every morning, we made it a habit to check and arrange the computers to ensure they were ready for use.

Most of our time that week was spent handling documents and doing office-related work. It was a bit less busy compared to the previous weeks, so we were able to stay in the office and focus on completing our tasks.

Part of our assignment was to put barcodes on several documents. We did this step by step and made sure each one was placed correctly to keep everything well-organized.
